

A late thank-you to my ONA WA for my funding to assist my attendance at the 3rd ANZONA International Conference held in Rotorua, N.Z. There were 192 delegates and it had an huge impact on me being involved in such an exciting program.

The Official Conference opening Rotorua Style was amazing and we all could

" Feel the Spirit Manaakitanga".

The Presenters were from all over Australia and New Zealand plus England hence we all had an insight from each of their clinical practices plus an insight from a patients view!

It is a privillage being a member of ANZONA and experience the international conference and network with other health professionals to learn about about latest developments in orthopaedics.

regards

Catherine Chadwick
